Each month, we're aiming to collect 2,025 pieces of litter, working toward our big goal of 25,000 pieces in 2025!

Will you help keep your park clean? It's easy to join in and help out!

- **Download the Litterati app to track your litter pick ups and use code 613996 to join**
- **Sign in and grab your supplies at the First Horizon Foundation Visitor Center and bring your own small bag**
- **Pick up discarded items**
- **Scan and Toss**

Your help ensures Shelby Farms Park remains a clean, welcoming space for everyone. Plus, this initiative supports our hardwoking Rangers, who dedicate their days to landscaping, preserving natural habitats, caring for the buffalo, and maintaining the Park's beauty. Park rangers spend over 100 hours a week picking up litter. Supplies are available at the front desk in the Visitor Center, so come ready to lend a hand.

You can also participate anytime you're in the Park—just scan what you find with the app, toss it in the trash, and make a difference. Together, we can keep this incredible green space looking its best!
